

NVIL HILL

ALLIANCE

Wot? ANVIL HILL IS A PART
OF THE WYBANG UPLANDS
250KMS NORTHWEST OF SYDNEY
IN THE HUNTER VALLEY.....

IT IS THE LARGEST INTACT AREA
OF VEGETATION LEFT IN THE CENTRAL
HUNTER VALLEY.....

SOON AUSTRALIAN COMPANY
CENTENNIAL COAL WILL DESTROY THE
2000 HECTARES SURROUNDING ANVIL
HILL IN ORDER TO BUILD THE SECOND
LARGEST OPEN-CUT COAL MINE IN
AUSTRALIA.

THE MISS EFFECTS

CENTENNIAL COAL'S ANVIL HILL
"PROJECT" WILL SIGNIFICANTLY IMPACT
ON CLIMATE CHANGE PRODUCING
10 MILLION TONNES/YR OF COAL RESULTING
IN EMISSIONS OF AROUND 25 MILLION
TONNES OF CO₂/YR WHICH EQUATES
TO 5% OF AUSTRALIA'S NATIONAL NET
EMISSIONS

AUSTRALIA ALREADY PRODUCES MORE
GREENHOUSE GAS PER CAPITA THEN
ANY OTHER COUNTRY IN THE WORLD.
CHEAP SUBSIDISED FOSSIL FUELS

LIKE COAL ARE THE REASON FOR AUSTRALIA'S
POLLUTING FROWESS.....

COAL MINES ARE ELIGIBLE FOR APPROX
38¢ PER LITRE SUBSIDY ON DIESEL MEANING
EACH YR THE GOV. WILL BE GIVING APPROX 30 MILLION \$\$\$
TO UNTENNIAL COAL FOR THEIR ANVIL HILL PROJECT..

THATS NOT EVEN NEAR THE AMOUNT PROMISED
BY THE GOV. OVER 5 YRS FOR RENEWABLE ENERGY

And the toll goes on...

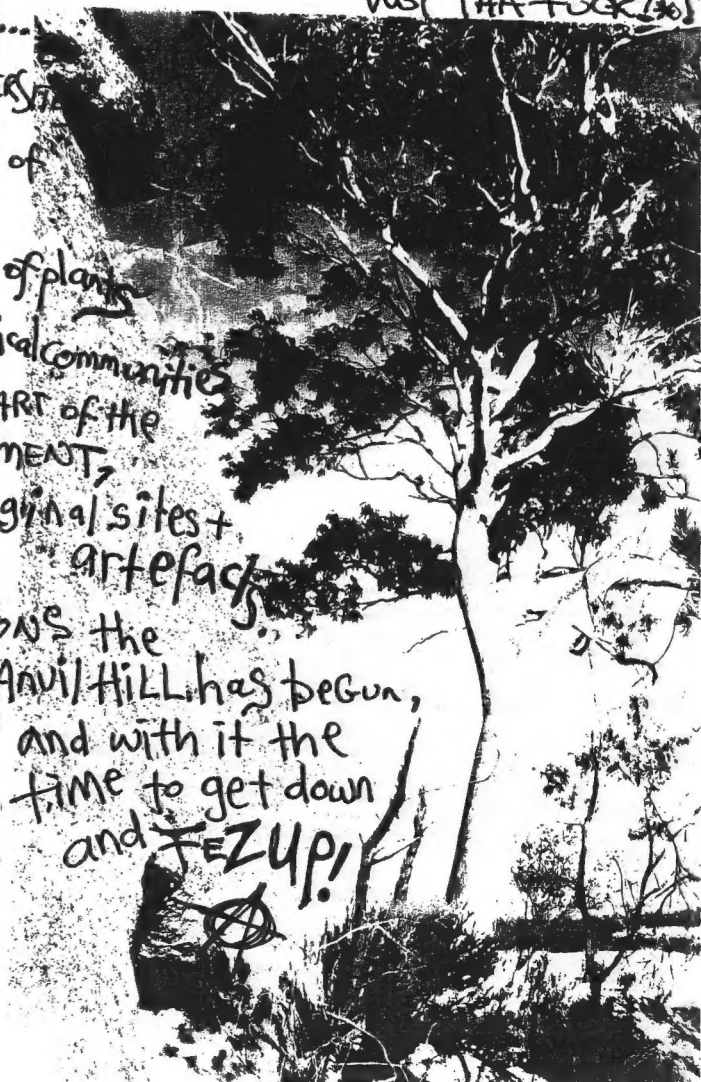

WST THA FUCK! (x)

Major loss of Biodiversity

- 22 threatened species of mammals + birds
- 10 threatened species of plants
- 4 endangered ecological communities

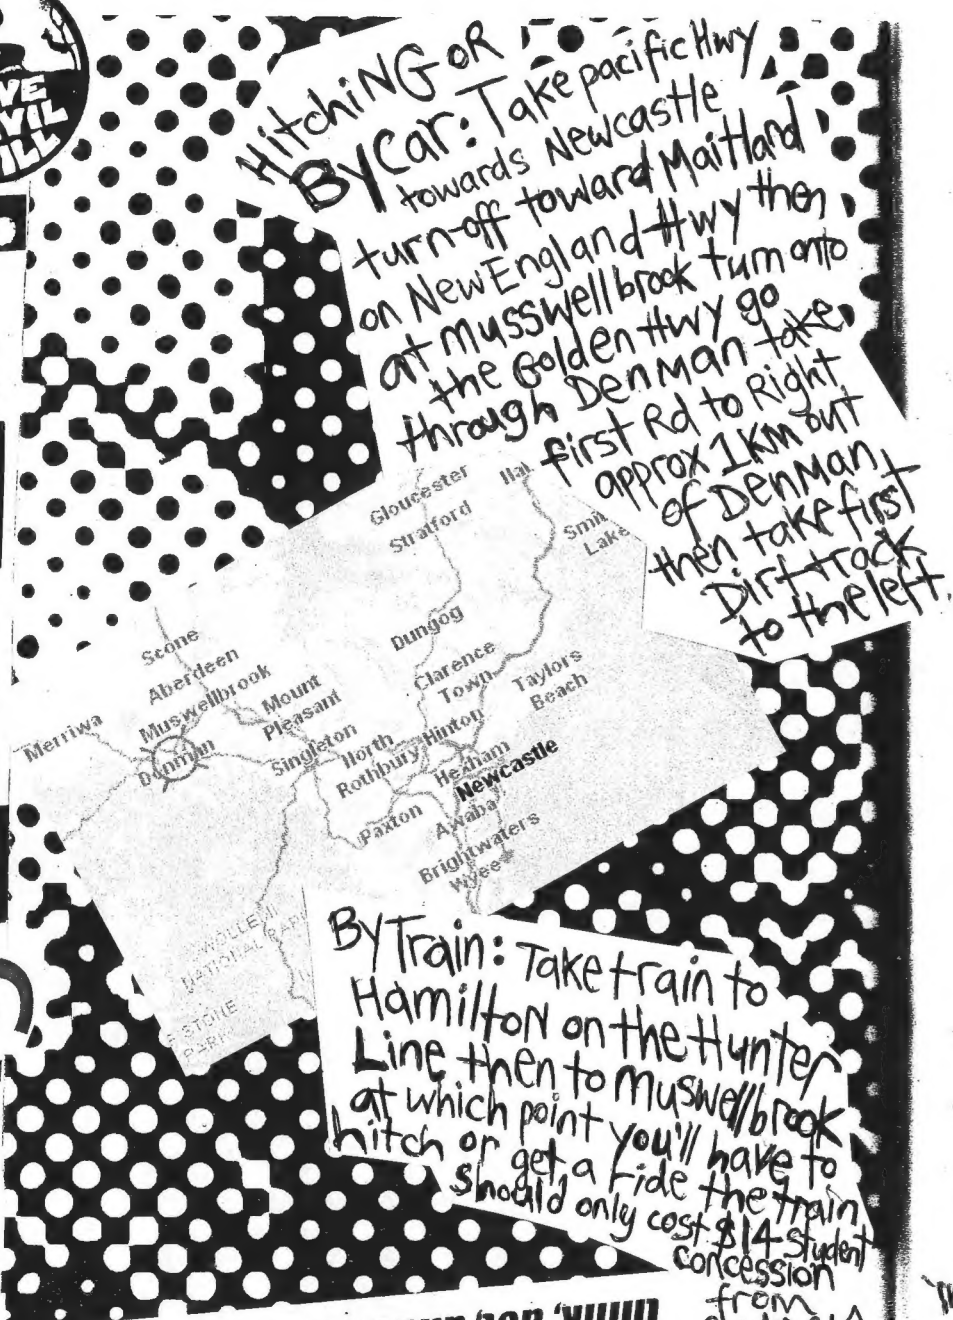

Removal of a LARGE PART of the
WYBONG CREEK CATCHMENT,
destruction of Aboriginal sites +

artefacts
For all these Reasons the
Campaign to Save Anvil Hill has begun,
and with it the
time to get down
and FEZ UP!

finding ANYVIL

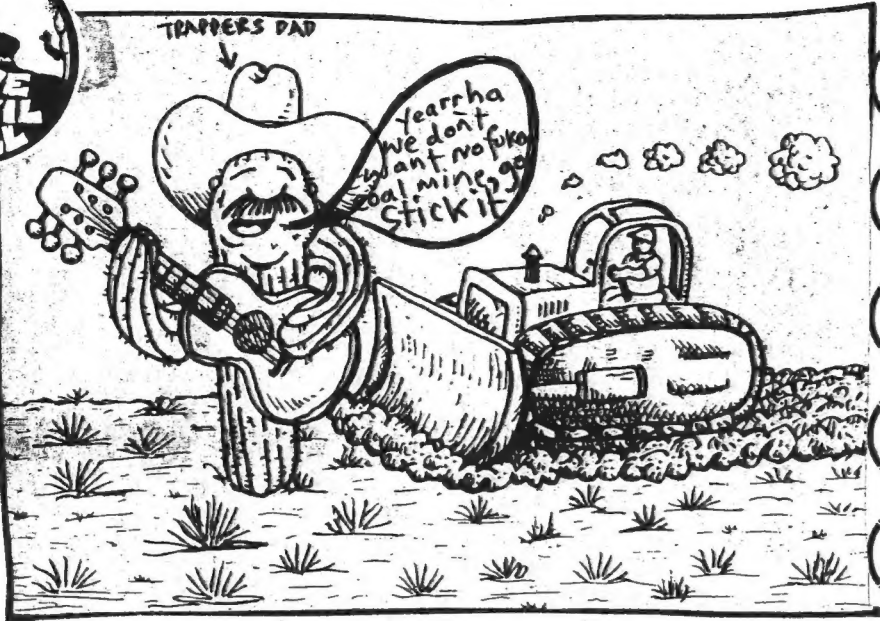

Hitching or BY Car: Take Pacific Hwy towards Newcastle turn off toward Maitland on New England Hwy then at Muswellbrook turn onto the Golden Hwy go through Denman take first Rd to Right approx 1km out of Denman then take first Dirt track to the left.

By Train: Take train to Hamilton on the Hunter Line then to Muswellbrook at which point you'll have to hitch or get a ride the train should only cost \$14 Student concession from Sydney central

Are there ways of thinking, acting, and living that might be more satisfying and exciting than the ways we think, act, and live today?

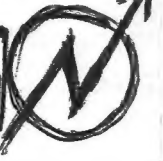

CAMP CACTUS!

NOT FAR FROM THE DELIGHTFUL DENMAN, BOUT 15 MINS DRIVE, IS CAMP CACTUS. PROPERTY OWNERS ADJACENT TO THE PROPOSED MINE SITE HAVE GIVEN THE OKAY FOR US TO SET UP CAMP, PROVIDING US WITH A SAFE PLACE TO ORGANIZE. THERE IS STILL MUCH NEEDED OUT AT CAMP: POTS, FOOD

CAMP CACTUS thus needs some turnupstuffers. As the whole world is full of things that just waiting for someone to come along, find them and bring them to camp for utilisation. To keep up to date with the goings on at camp checkout:

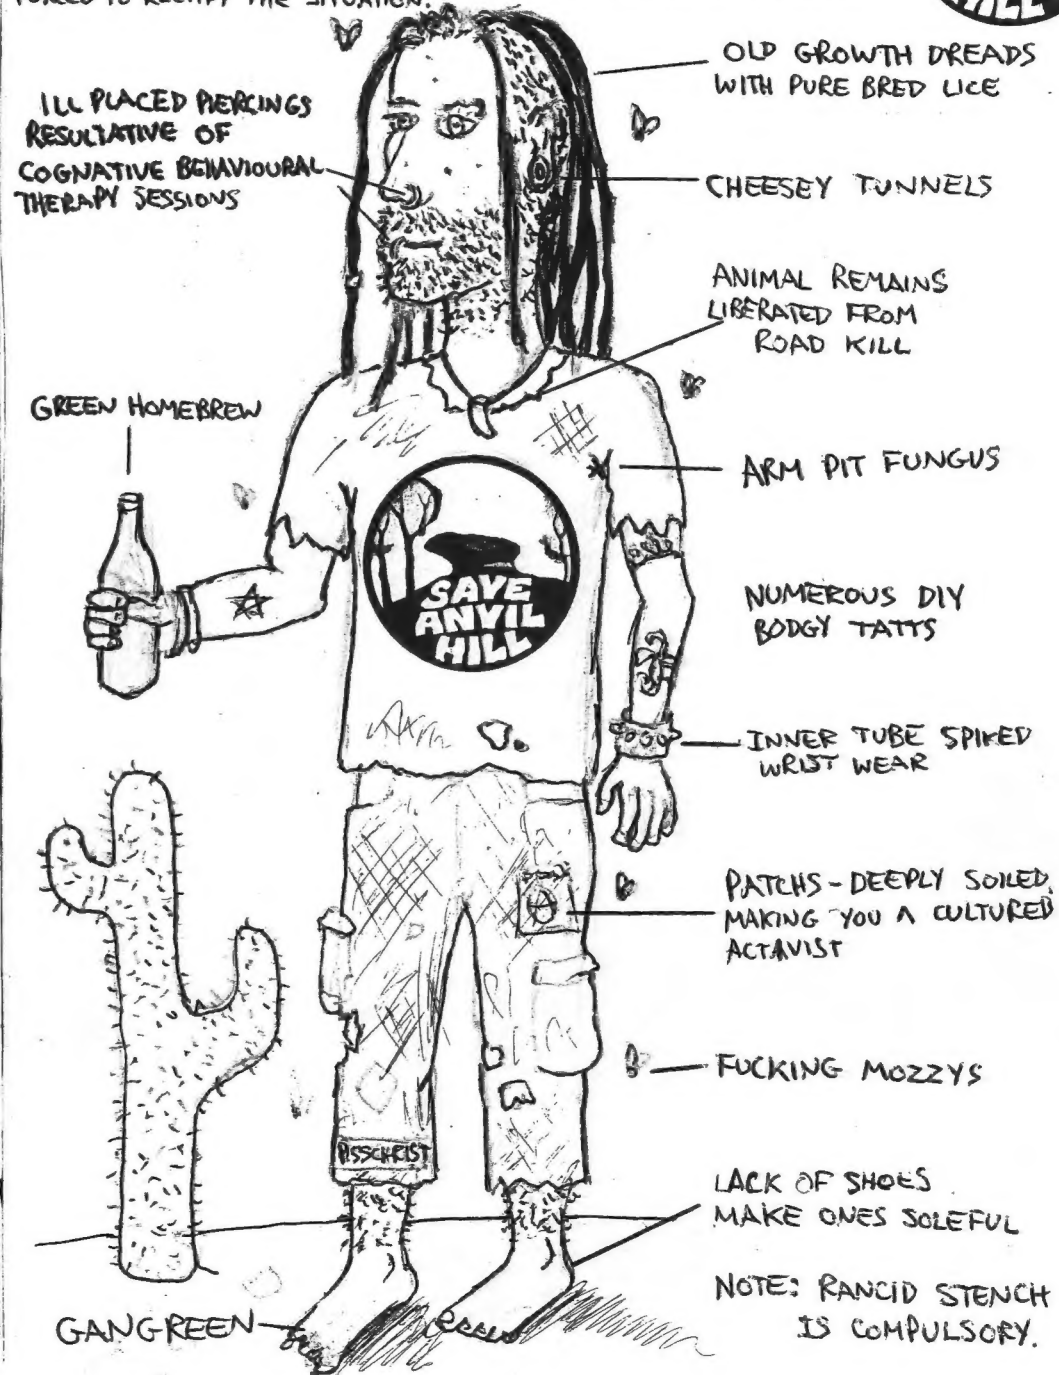

<http://anvillhillactioncamp.blogspot.com>

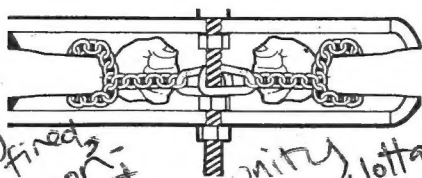

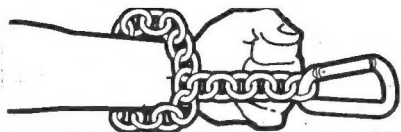

THE ACTIVIST UNIFORM 6

ENTRY INTO CAMP CACTUS (LIKE ANY SELF RESPECTING BLOCKADE) REQUIRES A CERTAIN LEVEL OF ATTIRE. THERE IS SOME ROOM FOR CREATIVE INTERPRETATION HOWEVER, DRAMATIC VARIATION FROM THE NORM IS NOT ACCEPTABLE. SHOULD PEOPLES COME IN OVERTLY BRIGHT, CLEAN, OR WELL PRESSED GARMENTS, EXECUTIVE FEZ CORE MANAGEMENT WILL BE FORCED TO RECTIFY THE SITUATION.

The key to any good direction is being creative, having fun and not getting caught. Although there are other media-worthy and non-violent ways to express your inner felt anguish, out at Anvil Hill mine site consultation and approval are only just finalised. There is a lotta bush to cover all of which is now owned by community walk-ins + black wallabying are likely to be the best way to draw a little attention to ones self... whilst holding up construction. So bring a whistle, flares, instruments or make megaphone, and start practicing vocal warfare. Stickers to raise awareness about ANZ's financial contribution to Centennial coal, making these are well-placed on ANZ ATMs or find yourself know at community PR days by which you can call home while and rig up flying foxes for fantastically fast getaways so centennial coal get lost or sabotage.

The possibilities are endless

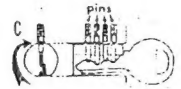

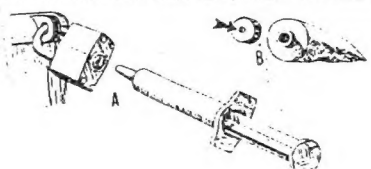

Direct Action

Autonomy means direct action, not waiting for requests to pass through the “established channels” only to bog down in paperwork and endless negotiations. Establish your own channels. If you want hungry people to eat, don’t just give money to some high-handed charity bureaucracy; find out where food is going to waste, collect it, and feed them. If you want affordable housing, don’t try to get the town council to pass a bill—that will take years, while people sleep outside every night; take over abandoned buildings and share them, and organize groups to defend them when the thugs of the absentee landlords show up. If you want corporations to have less power, don’t petition the politicians they bought to put limits on their own masters; find ways to work with others to simply take the power from them: don’t buy their products, don’t work for them, sabotage their billboards and buildings, prevent their meetings from taking place and their merchandise from being delivered. They use similar tactics to exert their power over you; it only looks valid because they bought the laws and social customs, too.

Don’t wait for permission or organization from some outside authority, don’t beg some higher power to organize your life for you. Act.

**Direct Action
Speaks Louder
Than Words**

Centennial Coal have an office street
in Muswellbrook shop 14, Brook project manager is
Ph (02) 65432800 Anvil Hill project manager is Roland Lee,
But feel free to hassle people
as Centennial coal are
committed to community
consultation and social impact assessment

DEEP ECOLOGY,
NOT DEEP SHIT!

ANVIL hill

A

ction

camp

4th - 8th
OCTOBER

2006

Five days in the bush

SKILLSHARING,

NVDA training, plotting,
bushcraft, and action planning.
